

FLASHMAN® CLIP-ON Headlamp S

The ultra-lightweight portable clip light

The **FLASHMAN® CLIP-ON Headlamp S** is ultra-lightweight and offers instant lighting solutions: the white main light can be used at the highest or lowest setting, depending on the situation, for perfect illumination. The red flashing light is used for visibility at night or in dark environments. Red and green flashing lights are available for safe signalling and orientation, which flash alternately.

In addition to its lighting function, versatility is also a key feature: thanks to its clip, the light can be used flexibly and is not limited to being worn on the headband supplied. The freely adjustable and robustly woven headband ensures a secure fit and comfort at all times – whether you're jogging, reading in the dark or doing precision work on a workpiece. The scope of delivery includes the ultra-light lamp, an adjustable headband and a practical charging cable – everything you need to get started right away.

Weighing less than 30 grams, you won't even notice the **FLASHMAN® CLIP-ON Headlamp S** on your head – a level of comfort that makes all the difference. And thanks to IPX4, it provides reliable protection against splashing water, so you can use it without hesitation even in the rain or when sweating.

Small in size, big in performance – flexible lighting that adapts to everyday life.

PRODUCT FEATURES

- Versatile light modes: white light, red flashing light, red and green flashing light (alternating)
- Different brightness levels: white light (highest, lowest level)
- Flexible use
- Ultra-lightweight, making it comfortable to wear on the head
- Included in the scope of delivery: headlamp, adjustable headband and charging cable

TECHNICAL DATA

Electrical data	
Rechargeable battery	400 mAh lithium battery
Charging time	1.5 h
Switching modes	Highest, lowest level (white), flashing light (red), flashing light (alternating red and green), OFF
Input	5V, 0.5 A
Luminous data	
Illuminant	18 x white SMD LEDs, 3 x red SMD LEDs, 3 x green SMD LEDs
Luminous flux	200 lm
General data	
Dimensions (l x w x d) approx.	56 x 42 x 22 mm
Material	ABC
Item no.	1424002036
