

SETO **GRP CONSTRUCTION SITE TRIPOD**
Light weight, easy to set up and safe to use

The **GRP CONSTRUCTION SITE TRIPODS** from SETOLITE demonstrate an understanding of what is important on a construction site: low weight, easy assembly and safe operation, even when wearing gloves, were the key development goals. This is reflected in well-thought-out details such as the extremely robust die-cast aluminium components, an integrated spirit level for precise levelling and the intelligent pull-out protection for the push rods.

PRODUCT FEATURES

- Highly robust and ultra-light fibreglass reinforced plastic (GRP)
- Anti-pinch protection (spacers between segments) and anti-pull-out protection (push rods cannot fall out)
- Spirit level and adjustable tripod leg for precise vertical alignment
- Enables glare-free working thanks to highlight point height

TECHNICAL DATA

	GRP CONSTRUCTION SITE TRIPOD	
General data	PRO	COMPACT
Number of segments	3	2
Max. payload	25 kg	
Dimensions (l x w x h, assembled / packing dimensions)	1,620 x 1,435 x 1,920 to 4,618 mm / 260 x 185 x 1,950 mm	1,590 x 1,430 x 1,840 to 3,106 mm / 290 x 250 x 1,840 mm
Height max.	4.6 m	3.1 m
Item no.	1410000339	1410000338
